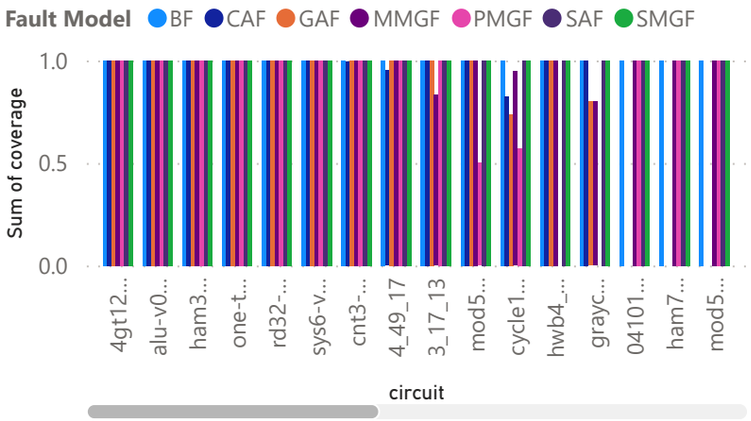
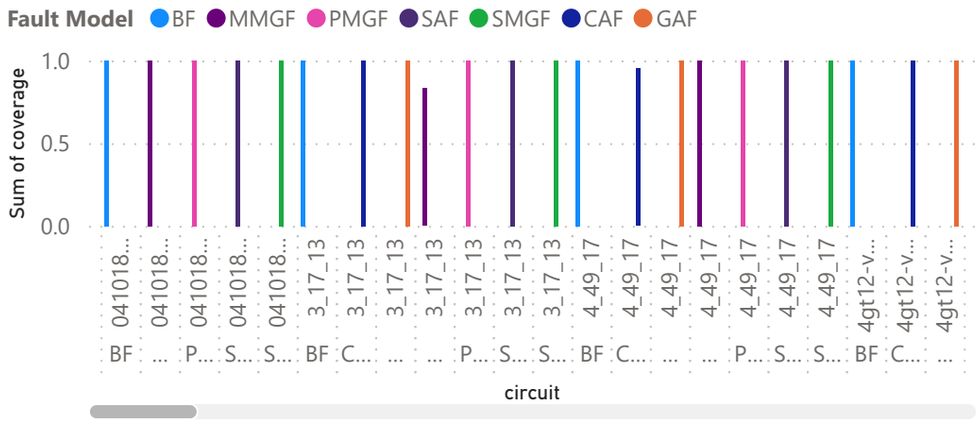
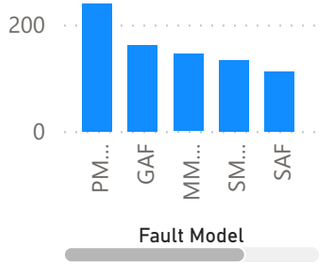
Sum of coverage by circuit and Fault Model



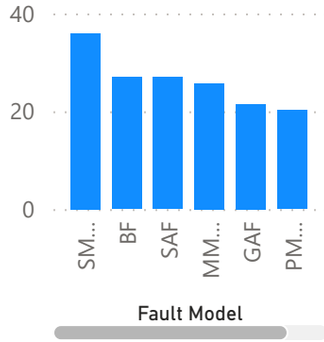
Sum of coverage by circuit, Fault Model and Fault Model



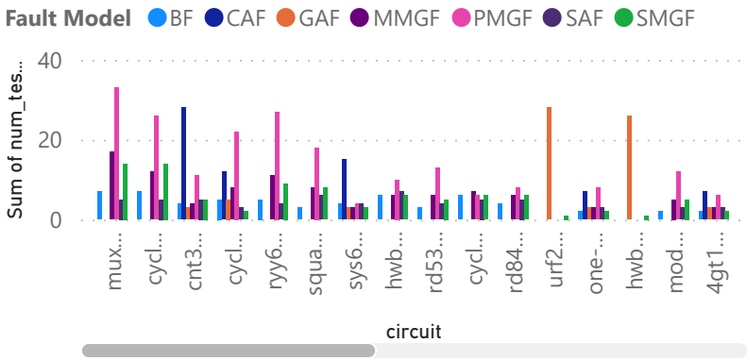
Sum of num_test_vectors by Fault Model



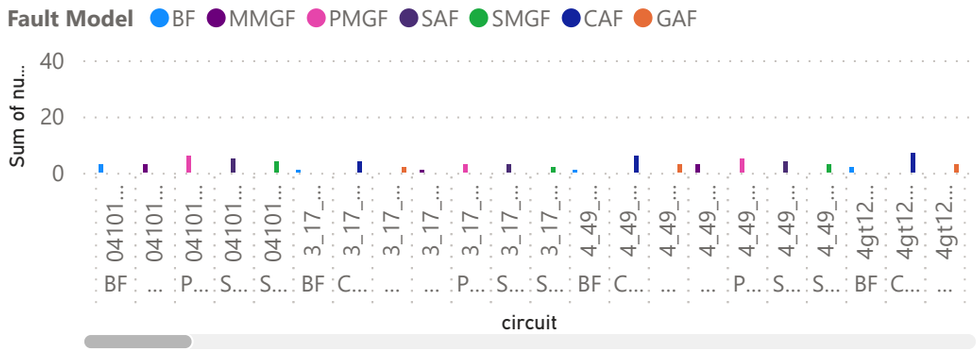
Sum of coverage by Fault Model



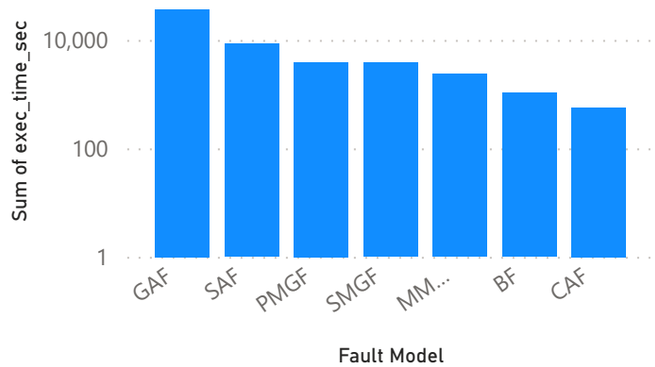
Sum of num_test_vectors by circuit and Fault Model



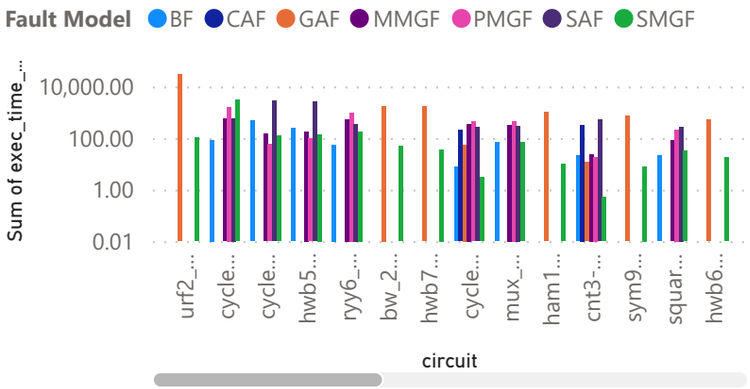
Sum of num_test_vectors by circuit, Fault Model and Fault Model



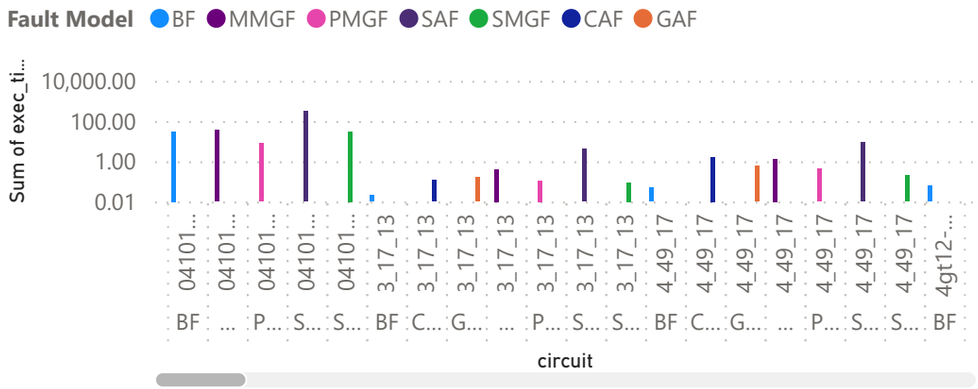
Sum of exec_time_sec by Fault Model



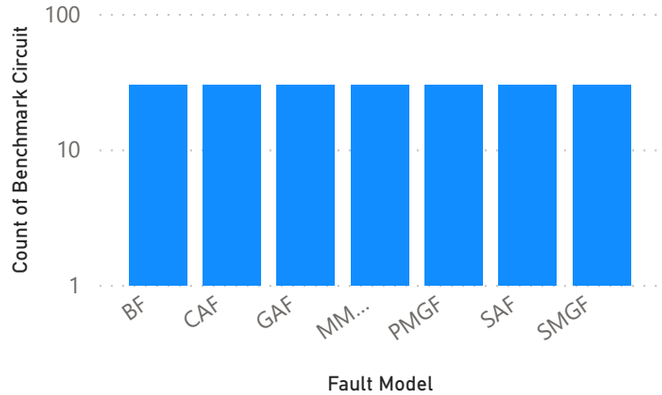
Sum of exec_time_sec by circuit and Fault Model



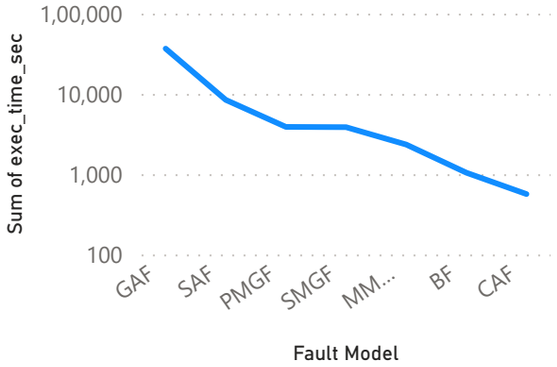
Sum of exec_time_sec by circuit, Fault Model and Fault Model



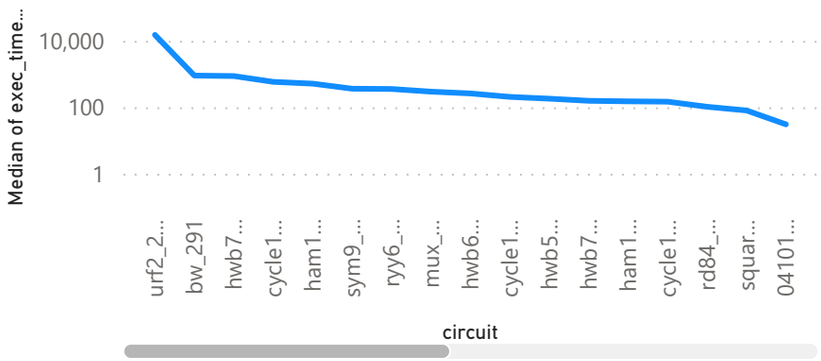
Count of Benchmark Circuit by Fault Model



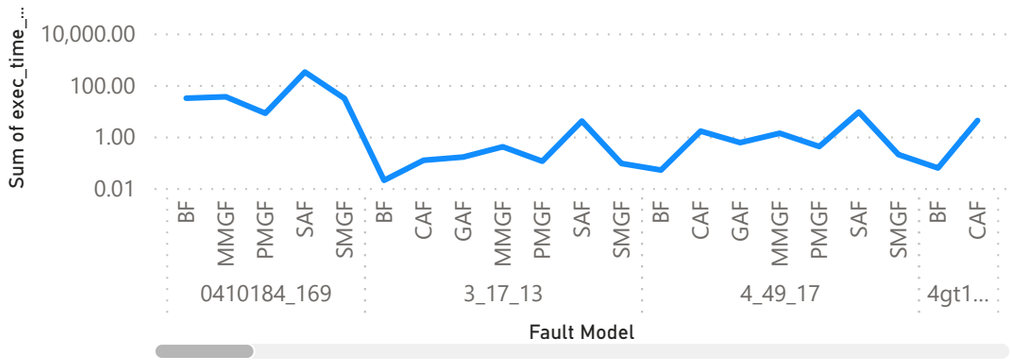
Sum of exec_time_sec by Fault Model



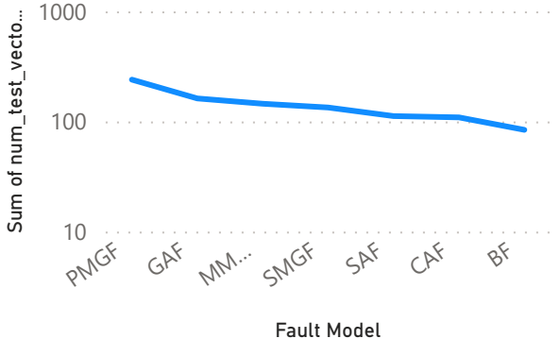
Median of exec_time_sec by circuit



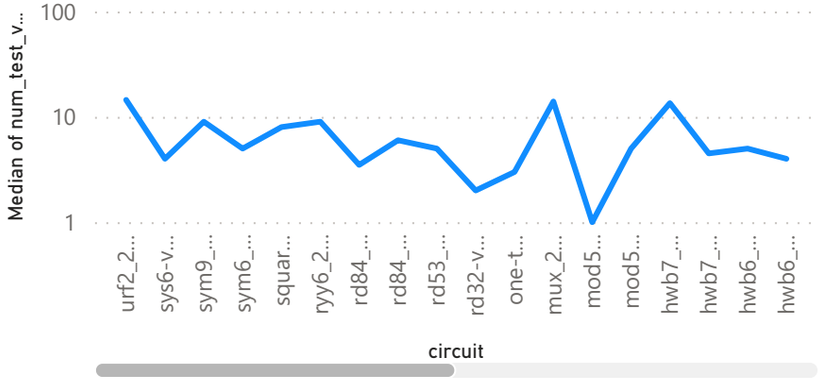
Sum of exec_time_sec by circuit and Fault Model



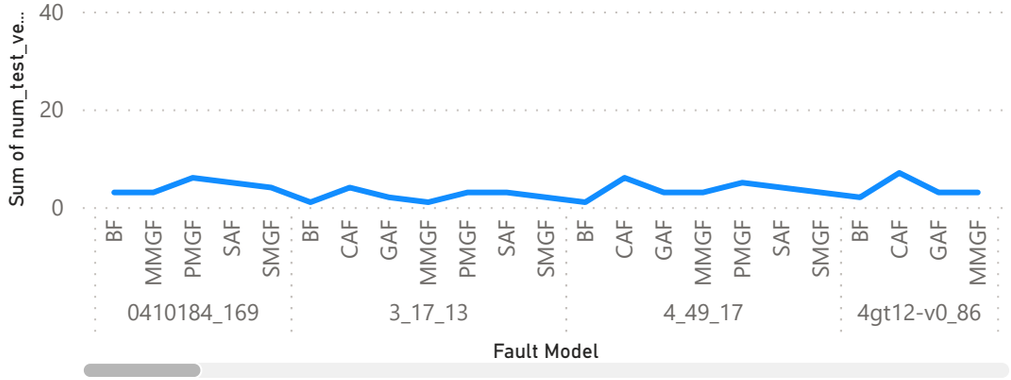
Sum of num_test_vectors by Fault Model



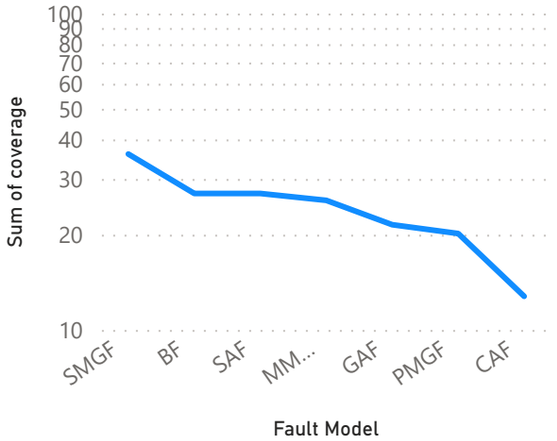
Median of num_test_vectors by circuit



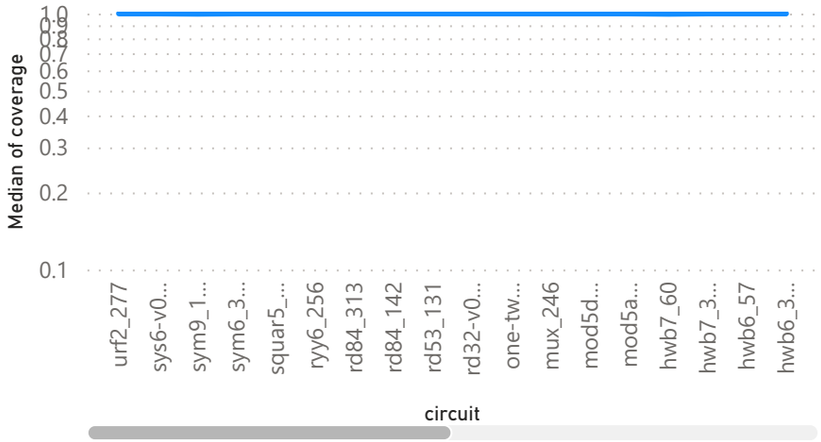
Sum of num_test_vectors by circuit and Fault Model



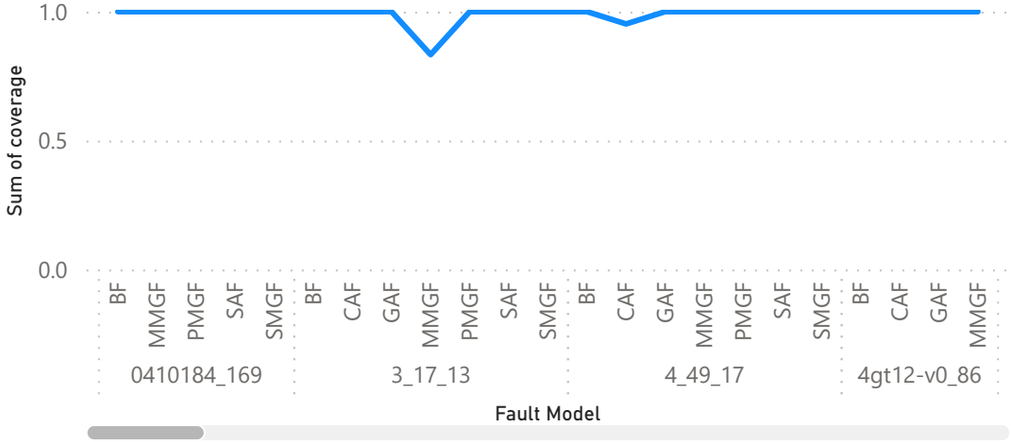
Sum of coverage by Fault Model



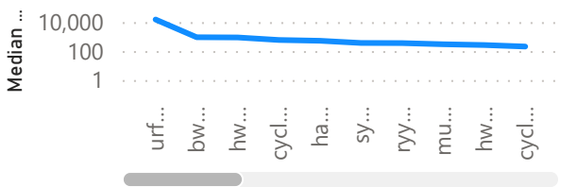
Median of coverage by circuit



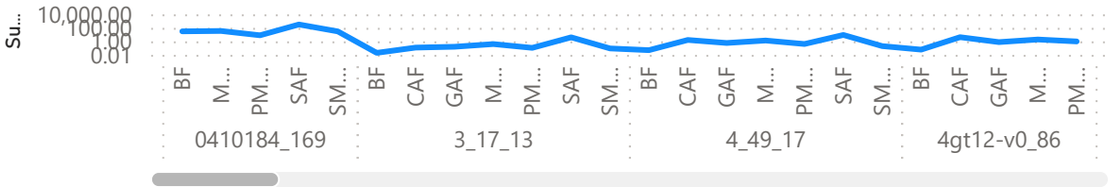
Sum of coverage by circuit and Fault Model



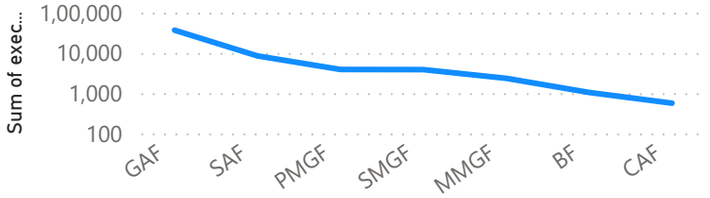
Median of exec_time_sec by circuit



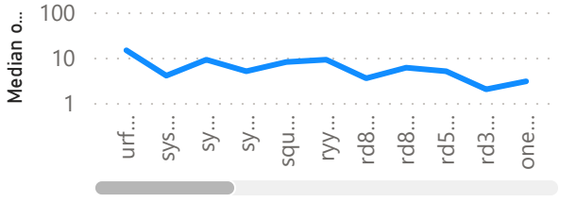
Sum of exec_time_sec by circuit and Fault Model



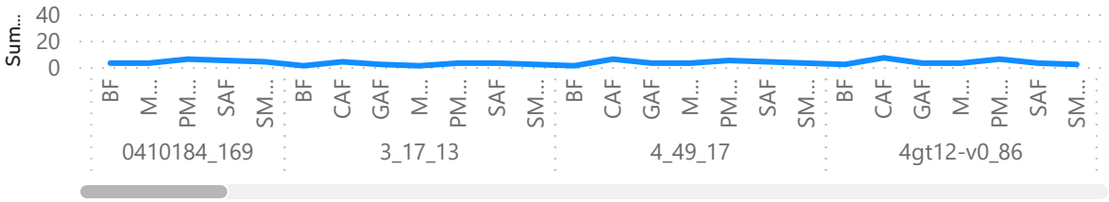
Sum of exec_time_sec by Fault Model



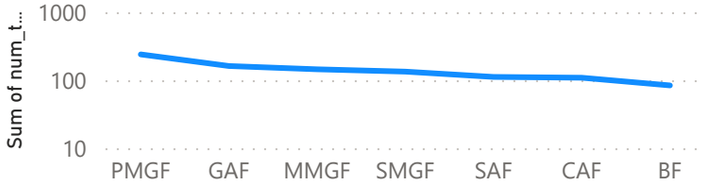
Median of num_test_vectors by circuit



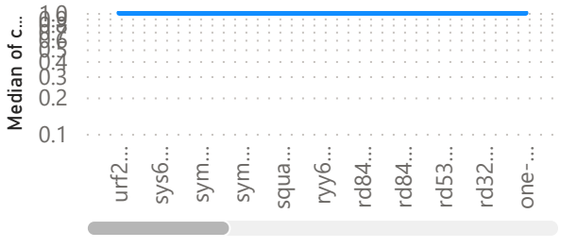
Sum of num_test_vectors by circuit and Fault Model



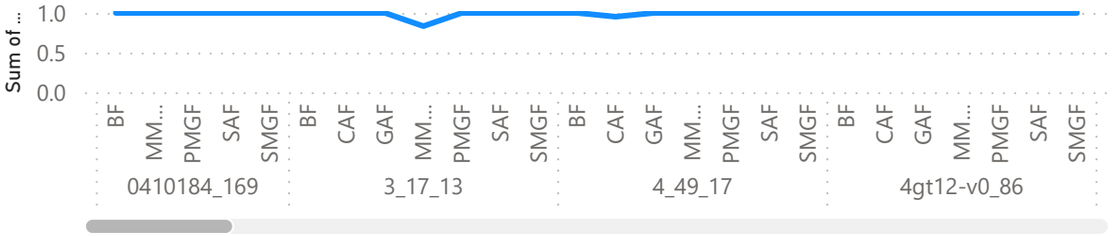
Sum of num_test_vectors by Fault Model



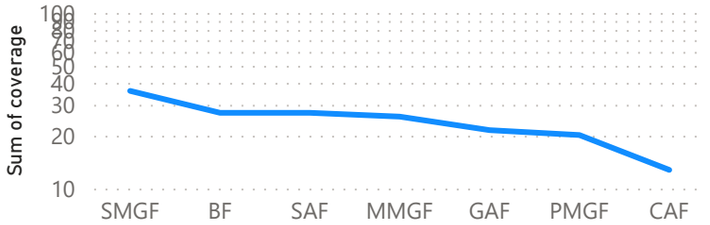
Median of coverage by circuit



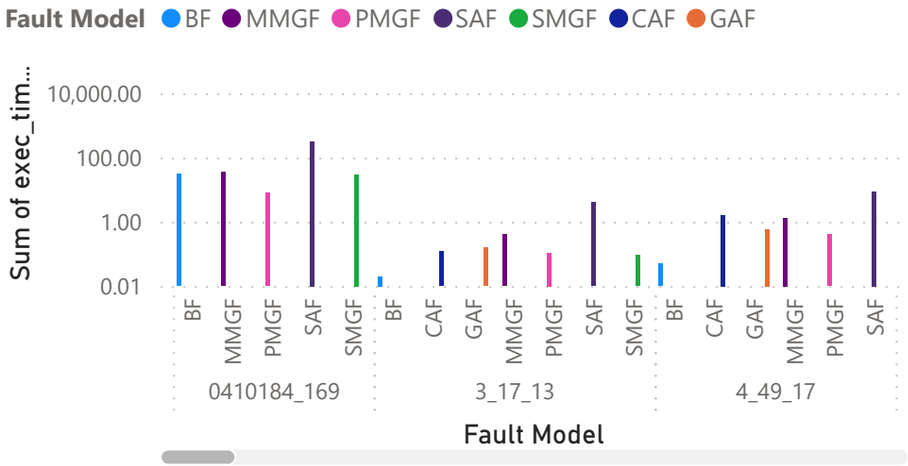
Sum of coverage by circuit and Fault Model



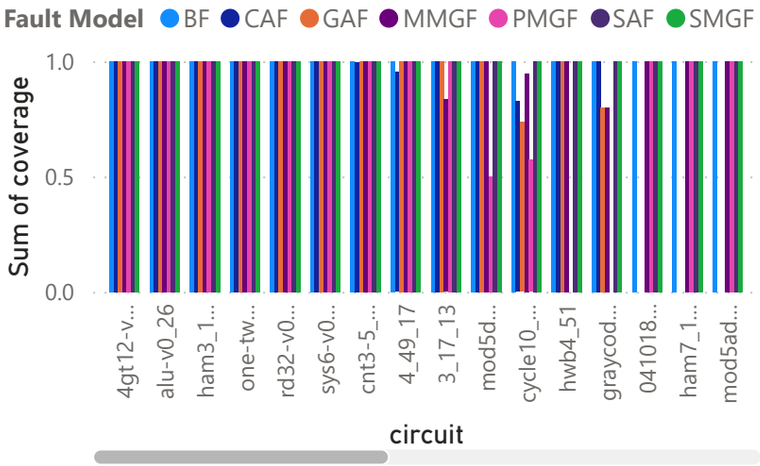
Sum of coverage by Fault Model



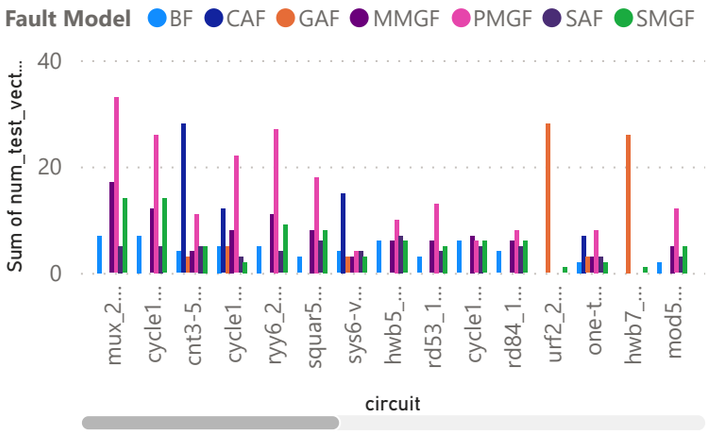
Sum of exec_time_sec by circuit, Fault Model and Fault Model



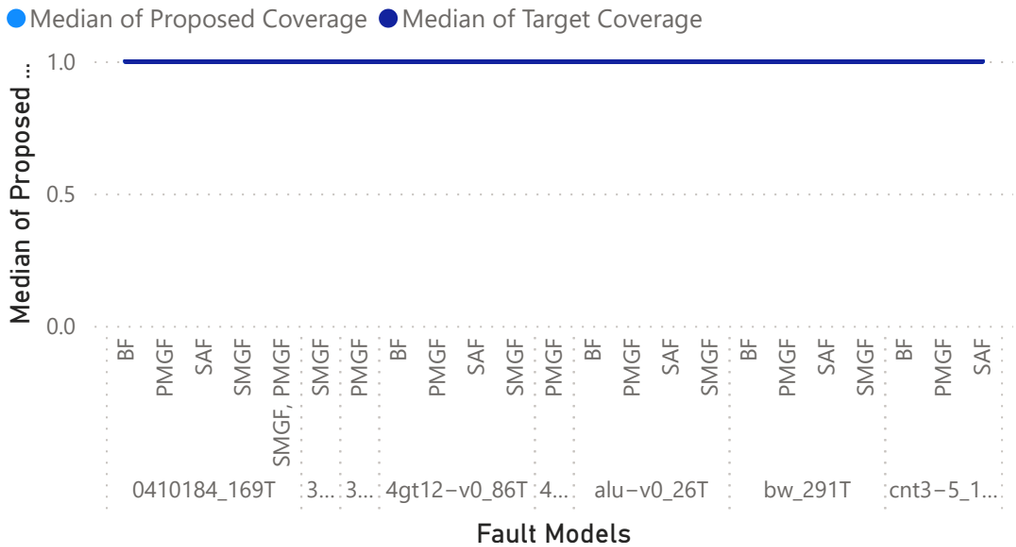
Sum of coverage by circuit and Fault Model



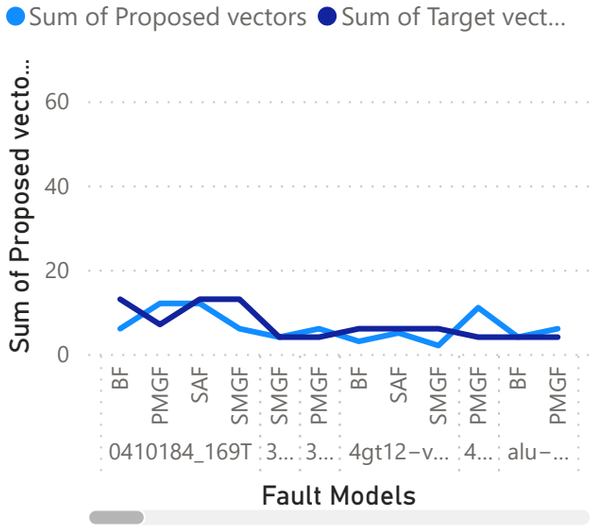
Sum of num_test_vectors by circuit and Fault Model



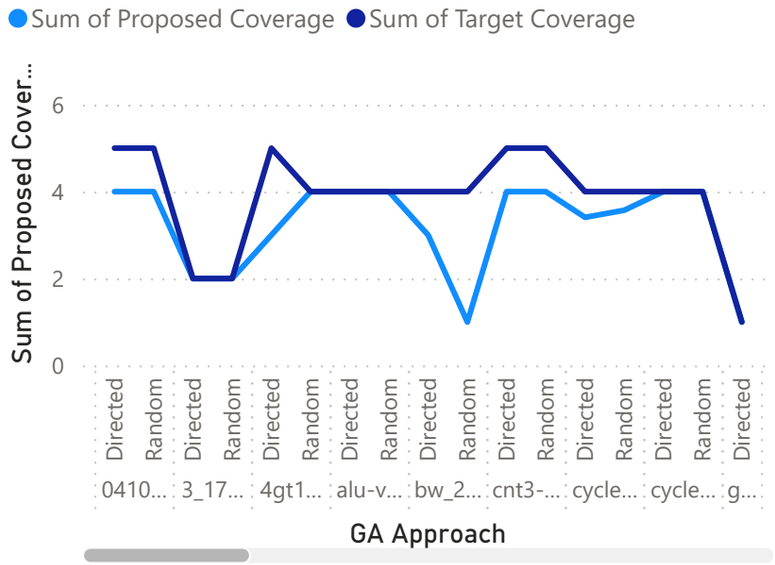
Median of Proposed Coverage and Median of Target Coverage by Benchmark Circuit and Fault Models



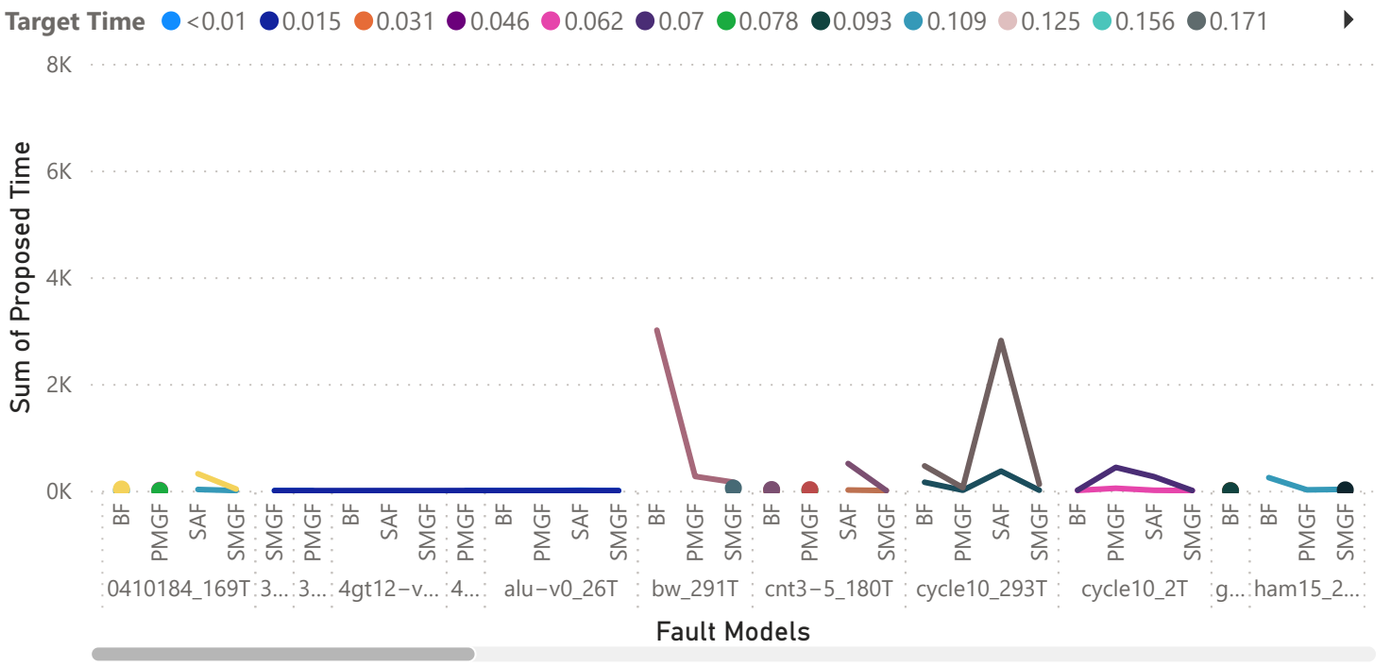
Sum of Proposed vectors and Sum of Target vectors by Benchmark Circuit and Fault Models



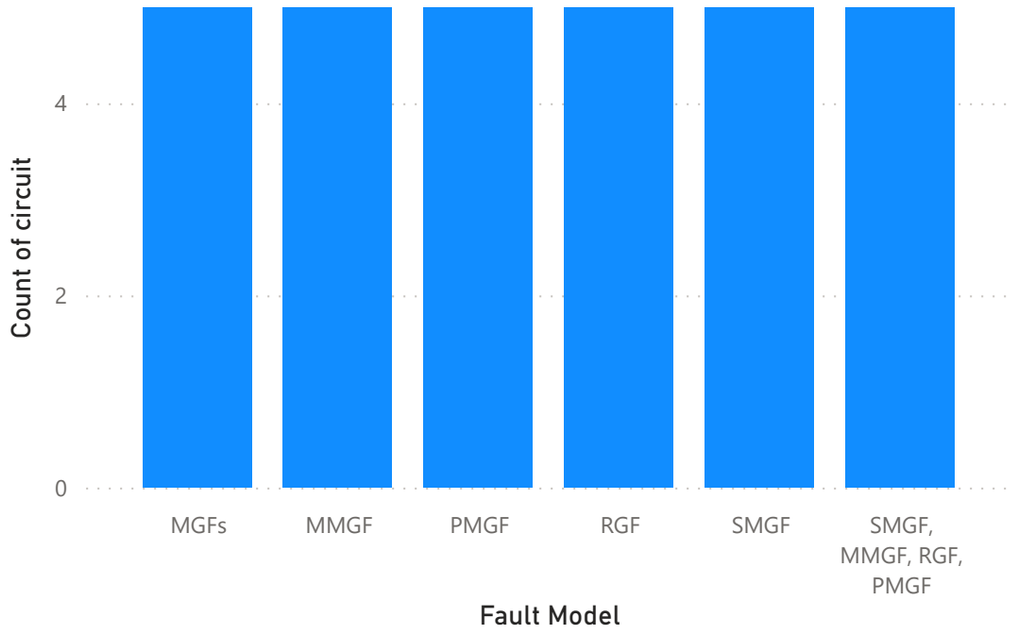
Sum of Proposed Coverage and Sum of Target Coverage by circuit and GA Approach



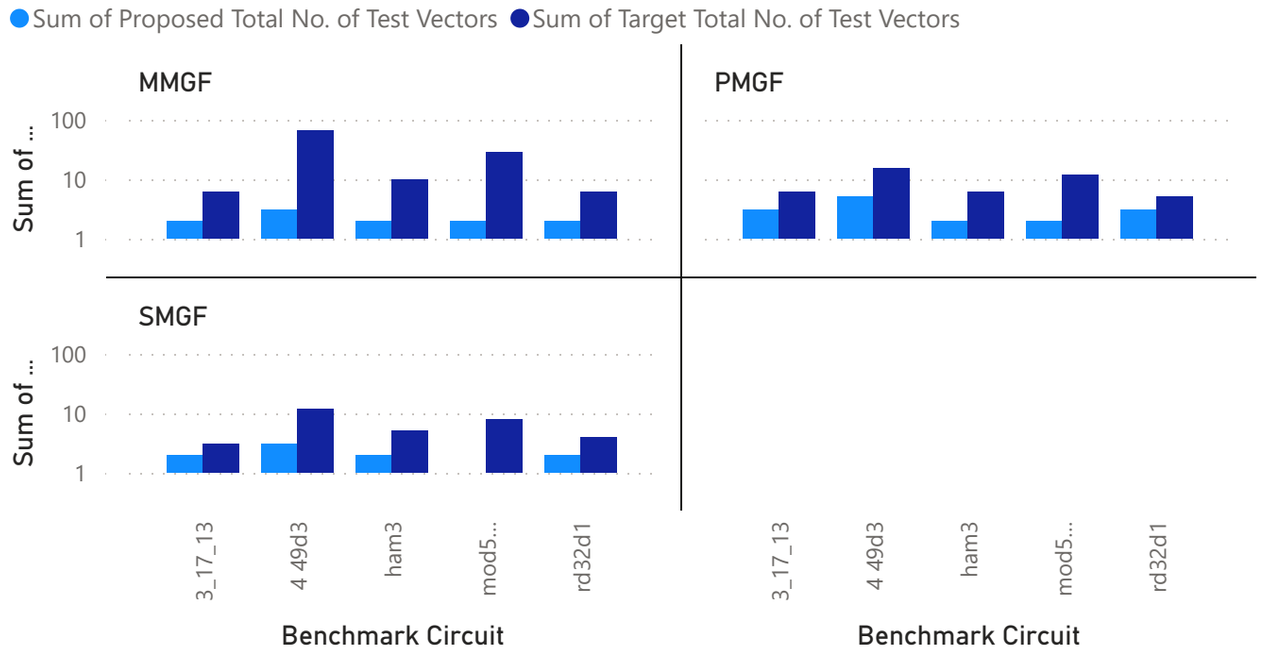
Sum of Proposed Time by Benchmark Circuit, Fault Models and Target Ti



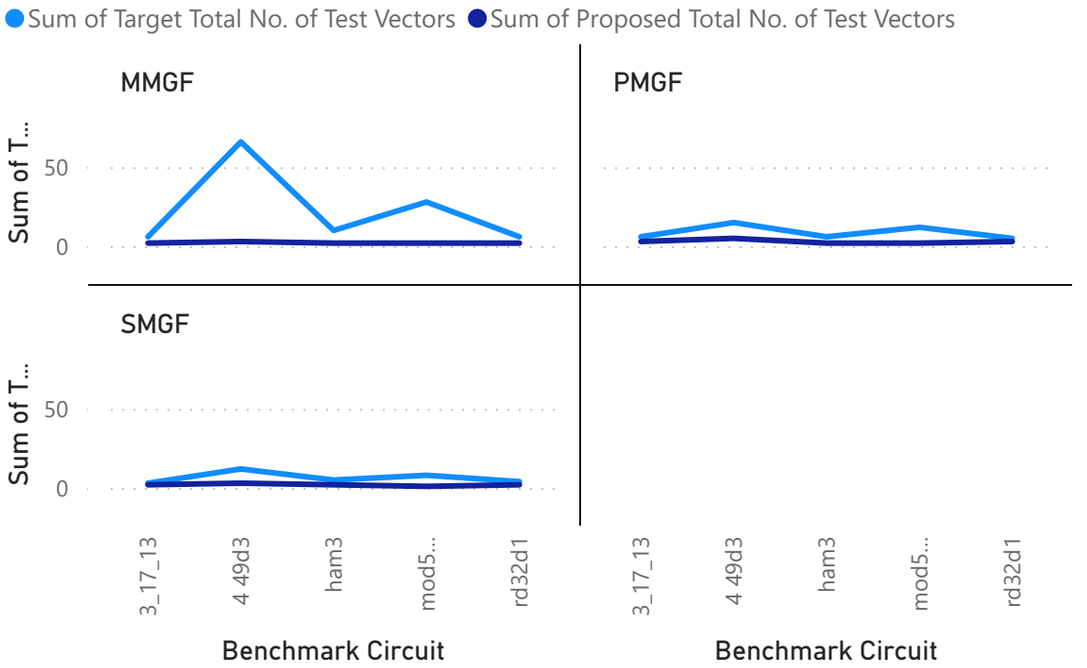
Count of circuit by Fault Model



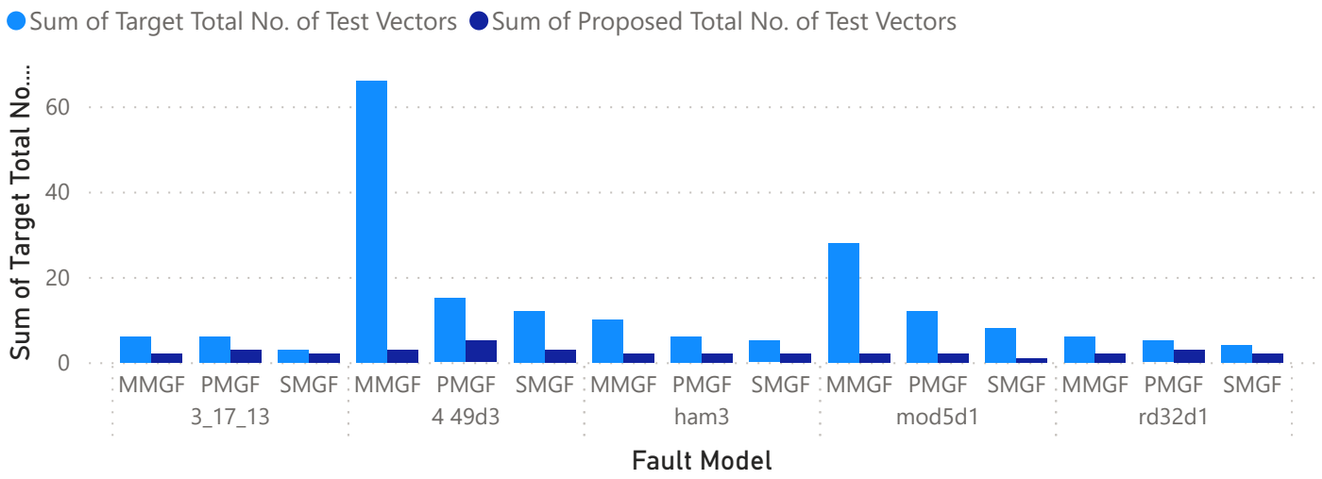
Sum of Proposed Total No. of Test Vectors and Sum of Target Total No. of Test Vectors by Benchmark Circuit and Fault Model



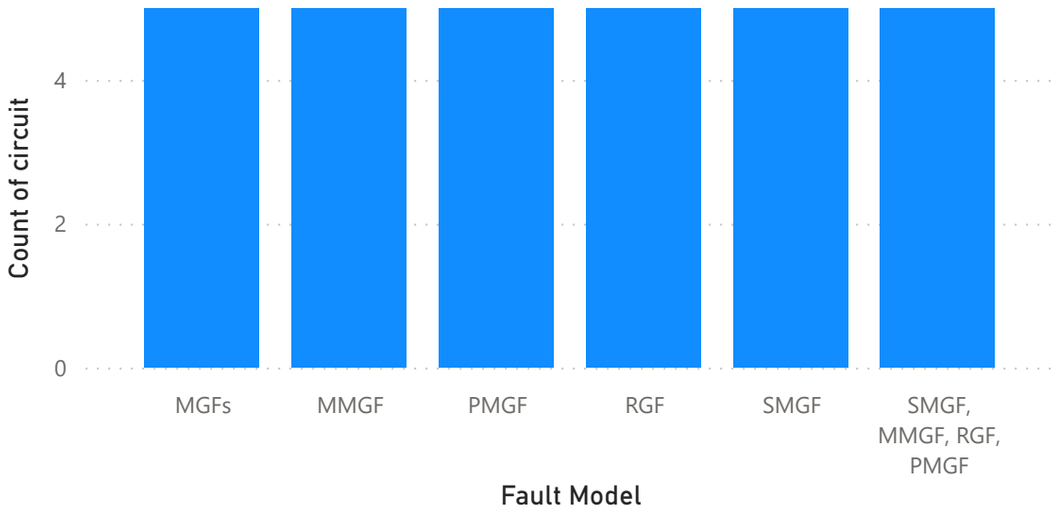
Sum of Target Total No. of Test Vectors and Sum of Proposed Total No. of Test Vectors by Benchmark Circuit and Fault Model



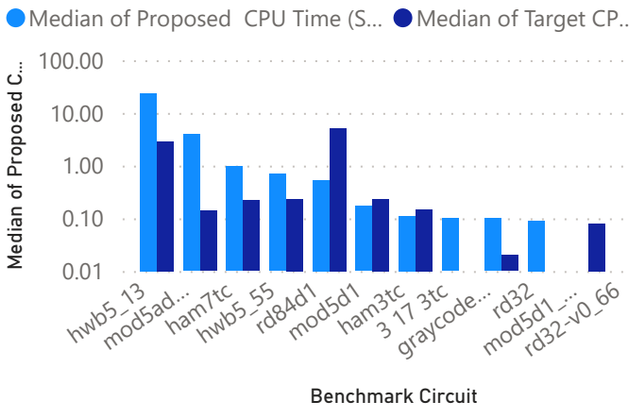
Sum of Target Total No. of Test Vectors and Sum of Proposed Total No. of Test Vectors by Benchmark Circuit and Fault Model



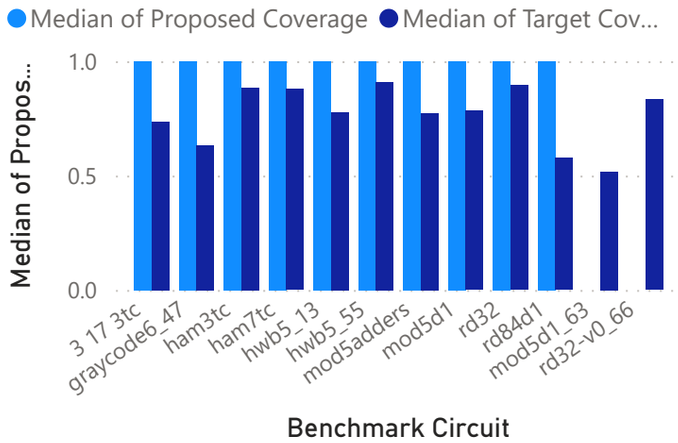
Count of circuit by Fault Model



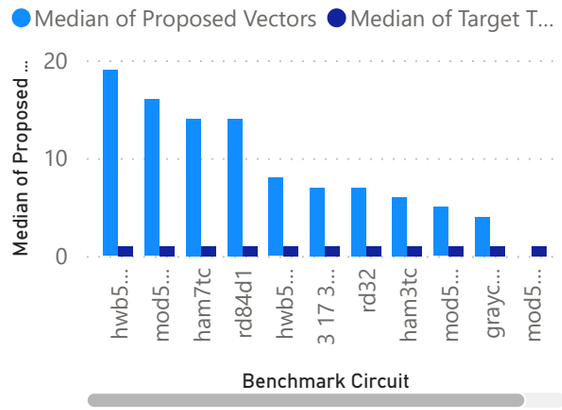
Median of Proposed CPU Time (Sec) and Median of Target CPU Time (Sec) by Benchmark Circuit



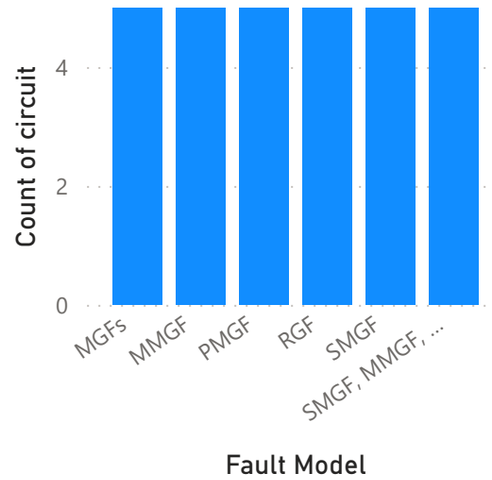
Median of Proposed Coverage and Median of Target Coverage by Benchmark Circuit



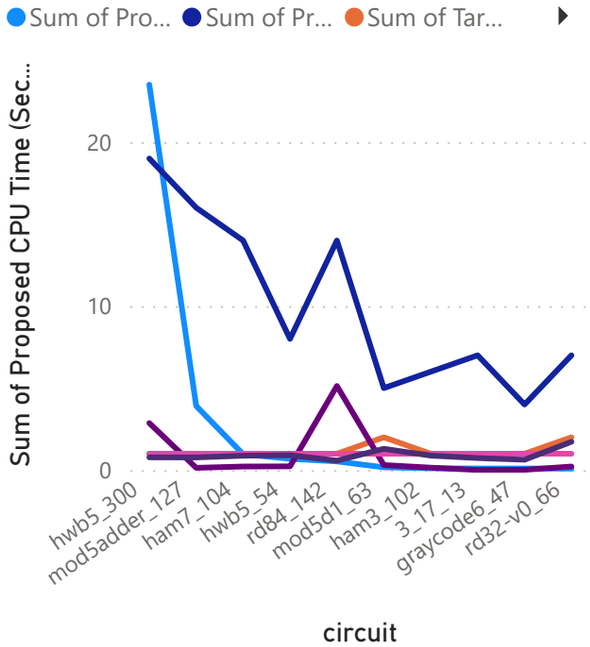
Median of Proposed Vectors and Median of Target Test pattern (TP) by Benchmark Circuit



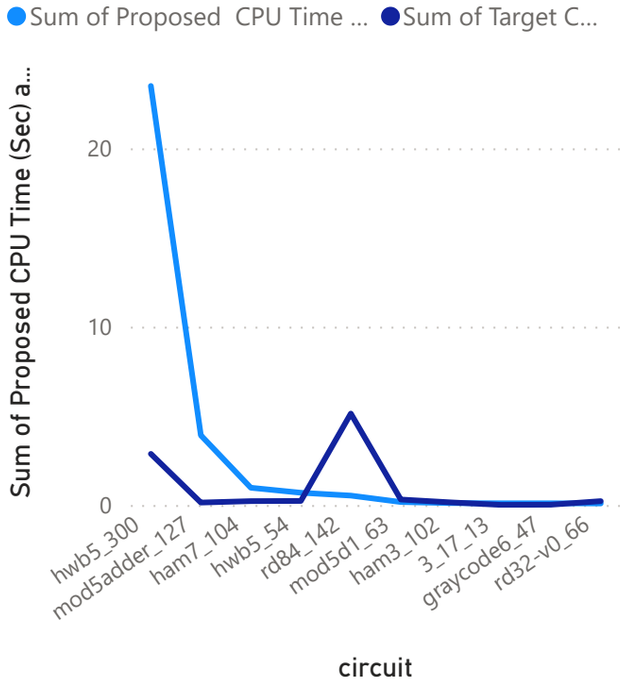
Count of circuit by Fault Model



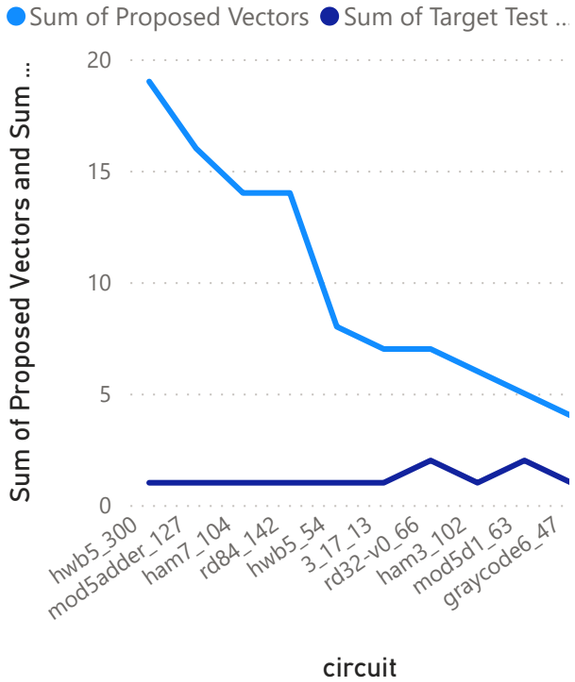
Sum of Proposed CPU Time (Sec), Sum of Proposed Vectors, Sum of Target Test pattern (TP), Sum of Target CPU Time (S...



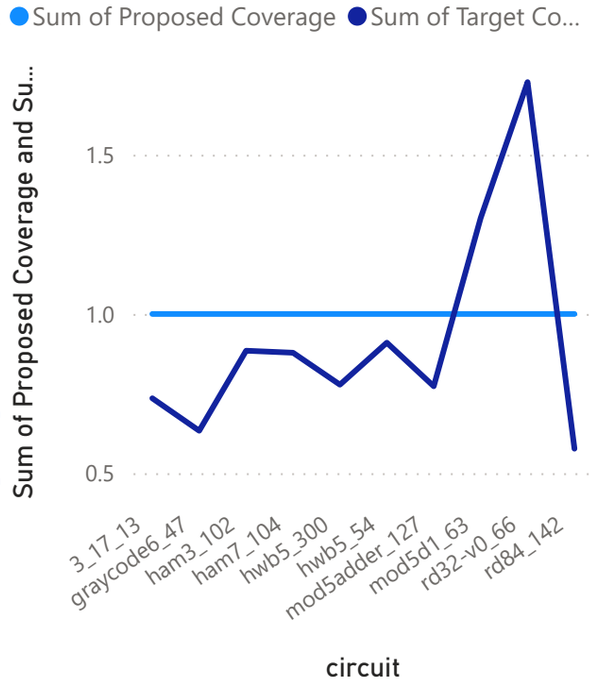
Sum of Proposed CPU Time (Sec) and Sum of Target CPU Time (Sec) by circuit



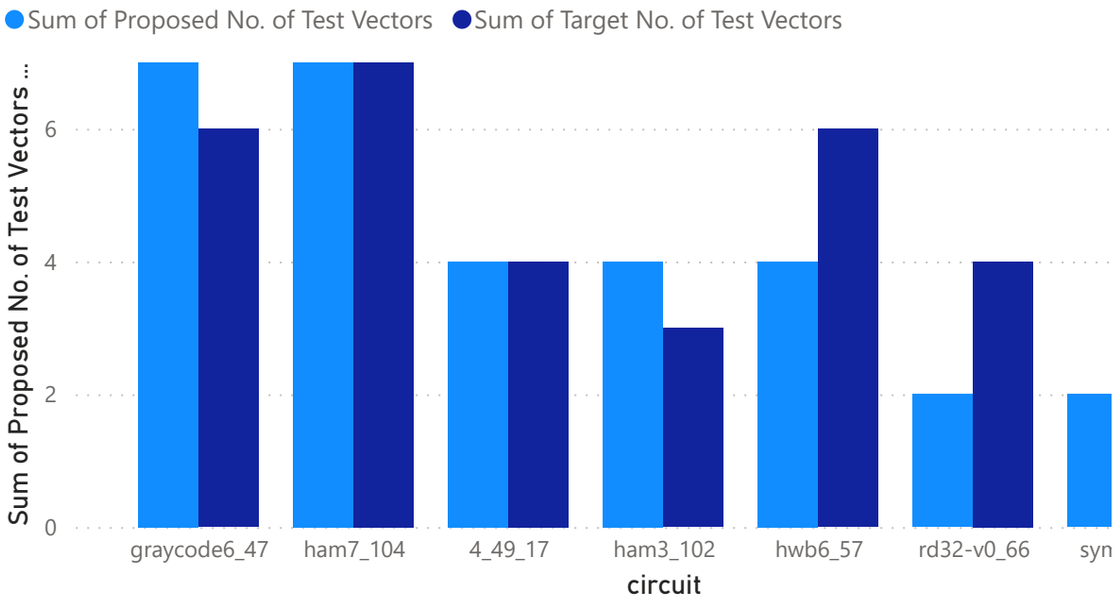
Sum of Proposed Vectors and Sum of Target Test pattern (TP) by circuit



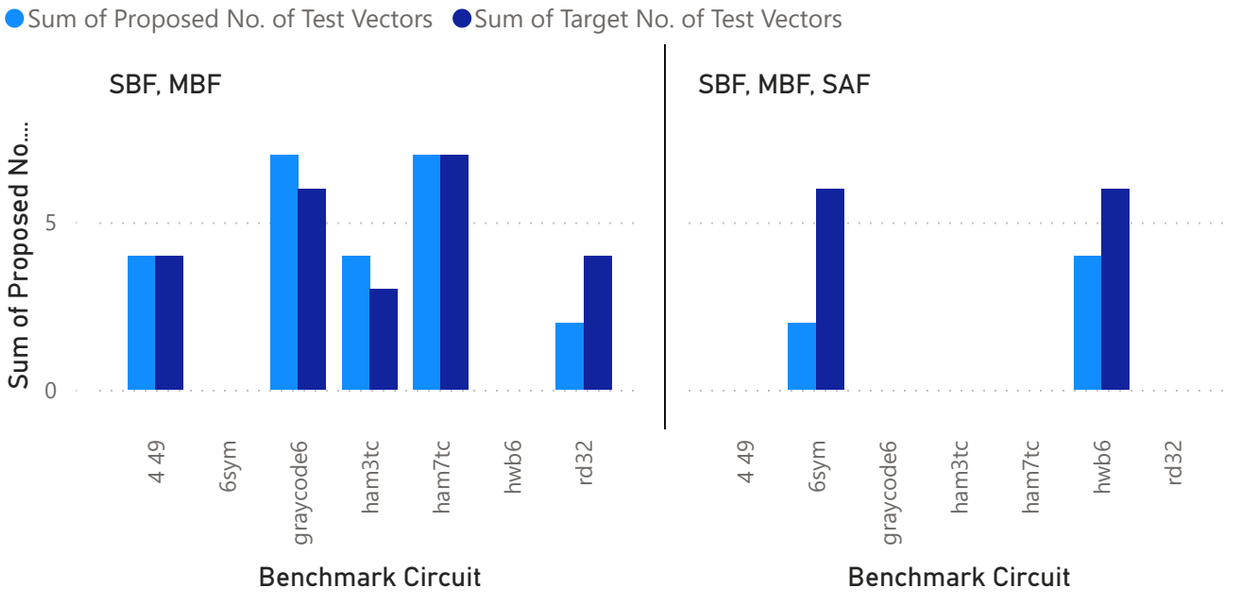
Sum of Proposed Coverage and Sum of Target Coverage by circuit



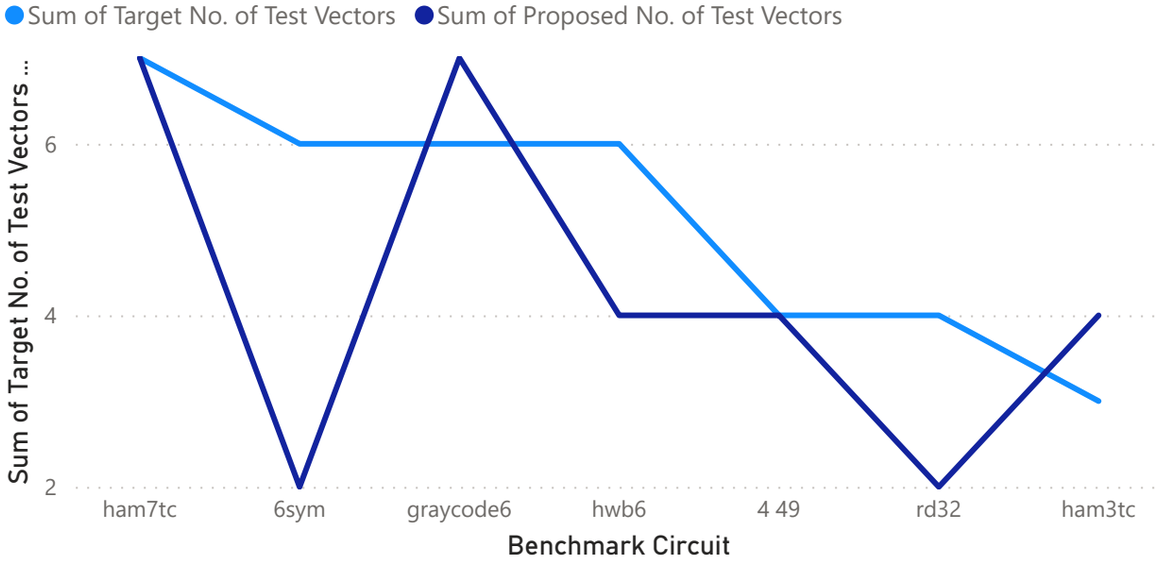
Sum of Proposed No. of Test Vectors and Sum of Target No. of Test Vectors by c



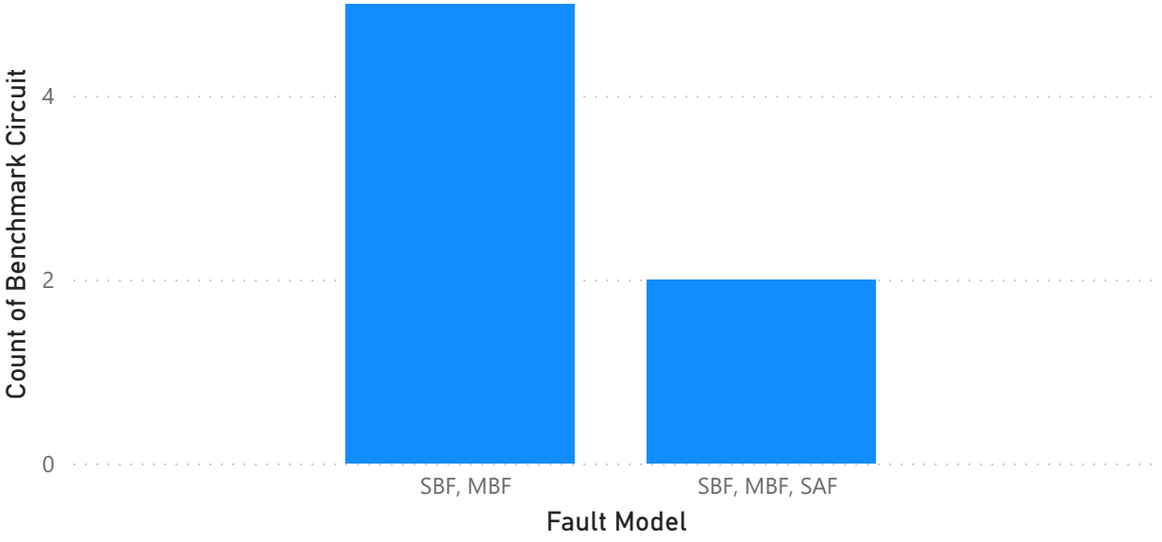
Sum of Proposed No. of Test Vectors , Sum of Target No. of Test Vectors and Sum of Target No. of Test Vectors by Benchmark Circuit and Fault Model



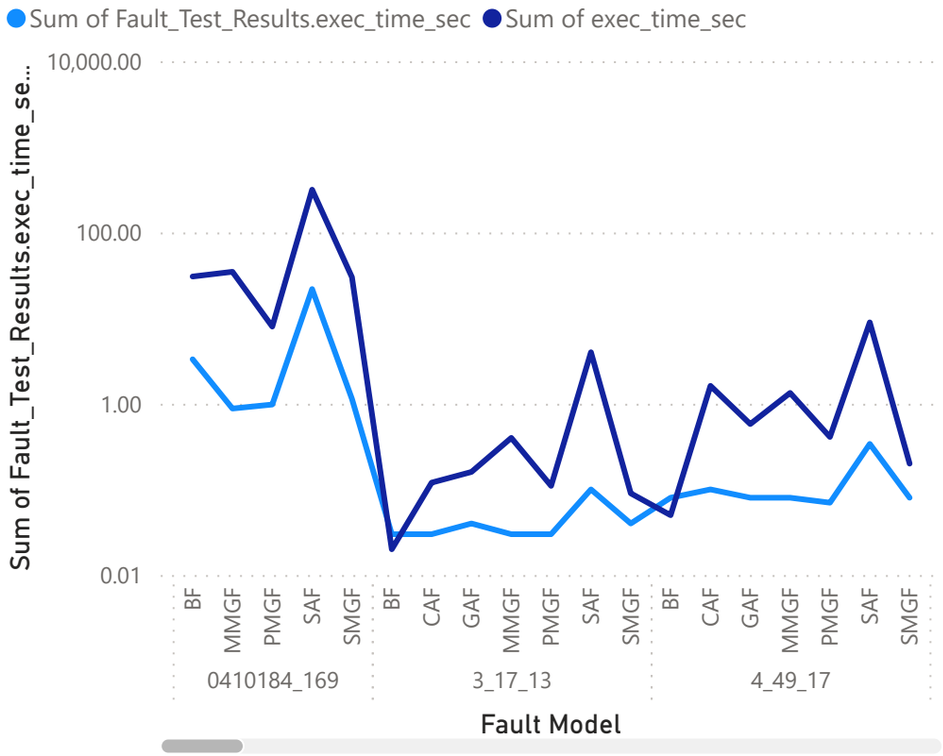
Sum of Target No. of Test Vectors and Sum of Proposed No. of Test Vectors by Benchmark Circuit



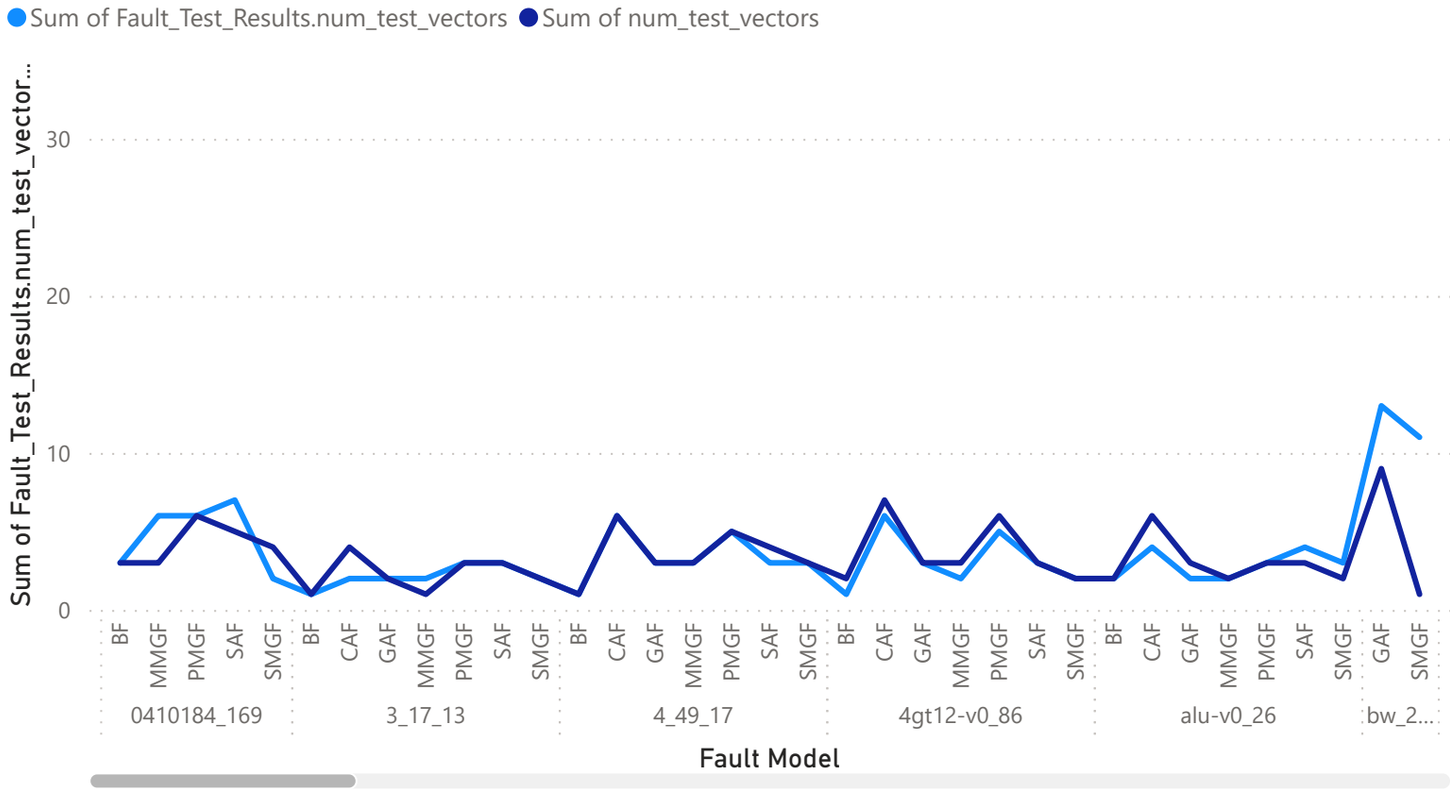
Count of Benchmark Circuit by Fault Model



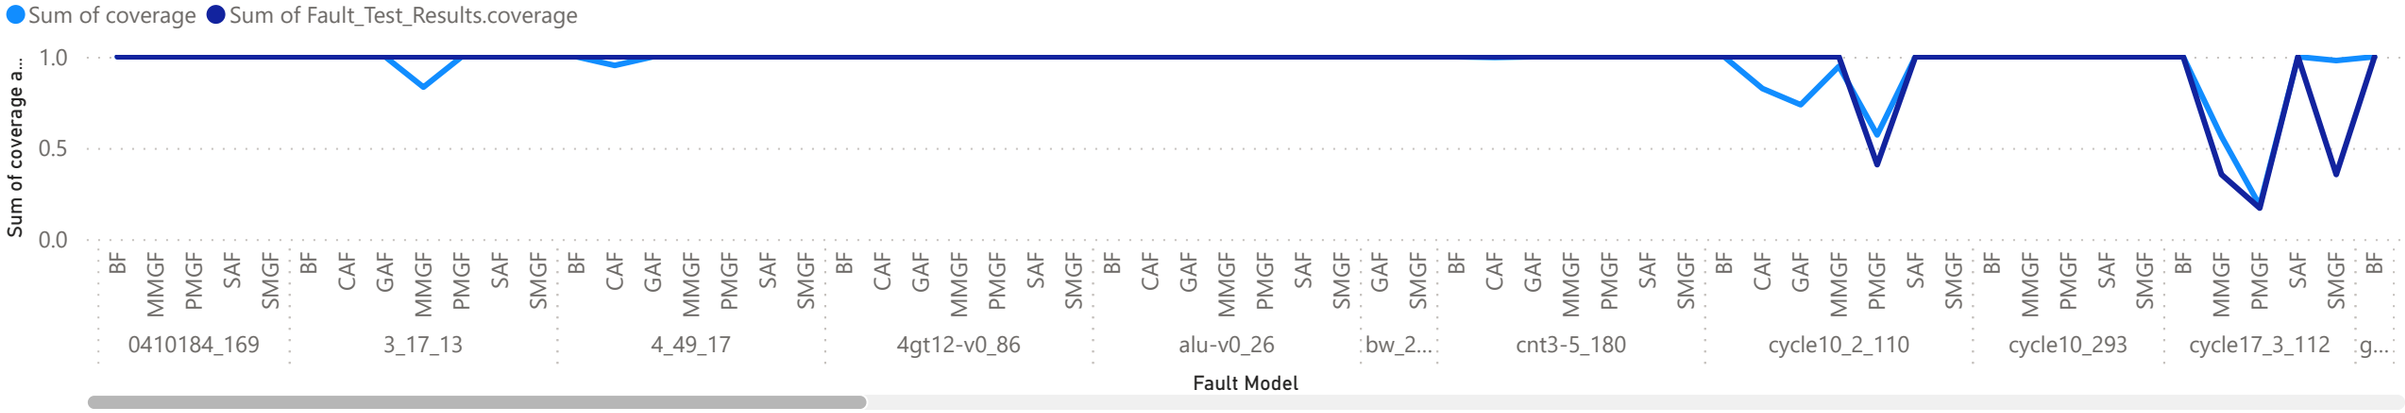
Sum of Fault_Test_Results.exec_time_sec and Sum of exec_time_sec by circuit and Fault Model



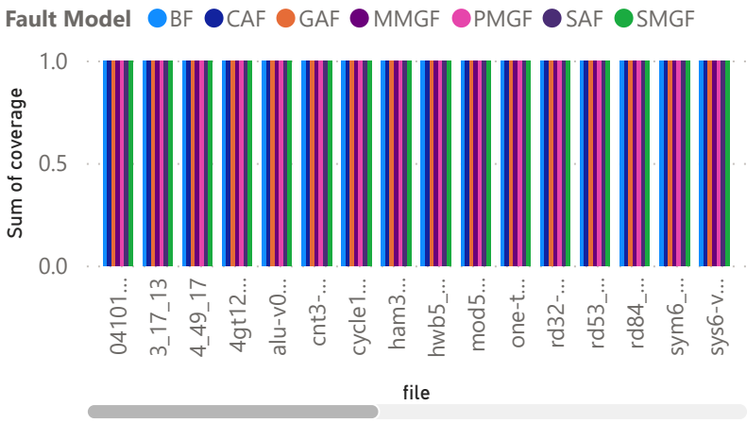
Sum of Fault_Test_Results.num_test_vectors and Sum of num_test_vectors by circuit and Fault Model



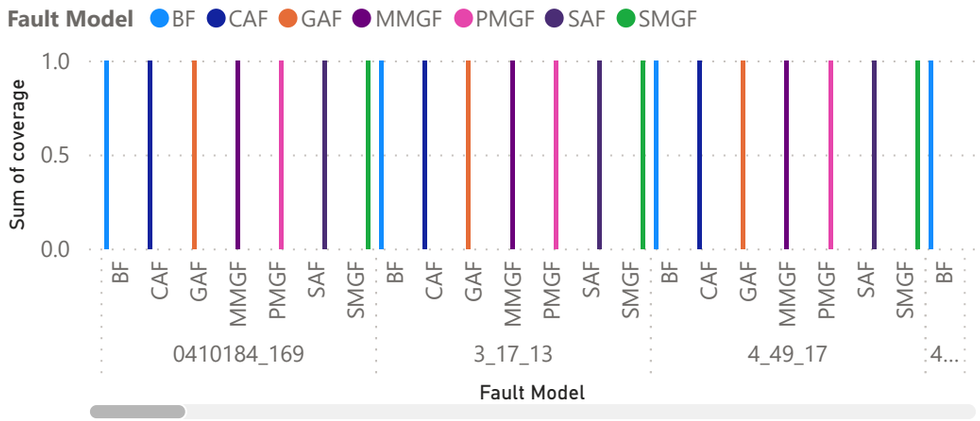
Sum of coverage and Sum of Fault_Test_Results.coverage by circuit and Fault Model



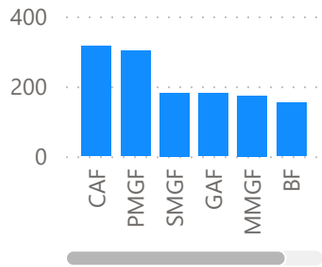
Sum of coverage by file and Fault Model



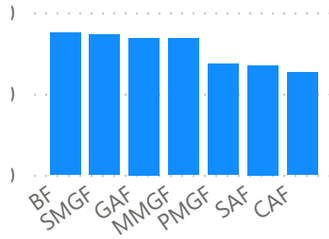
Sum of coverage by file, Fault Model and Fault Model



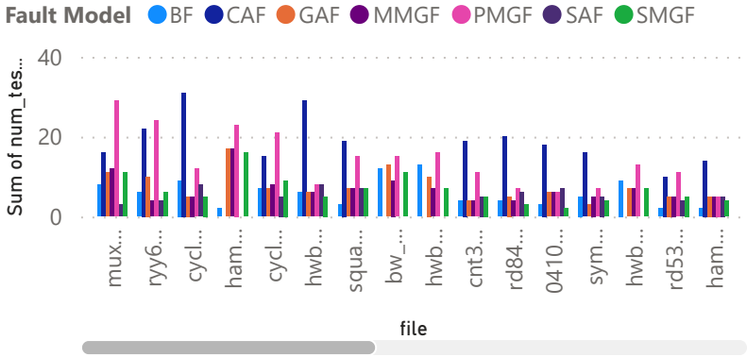
Sum of num_test_vectors by Fault Model



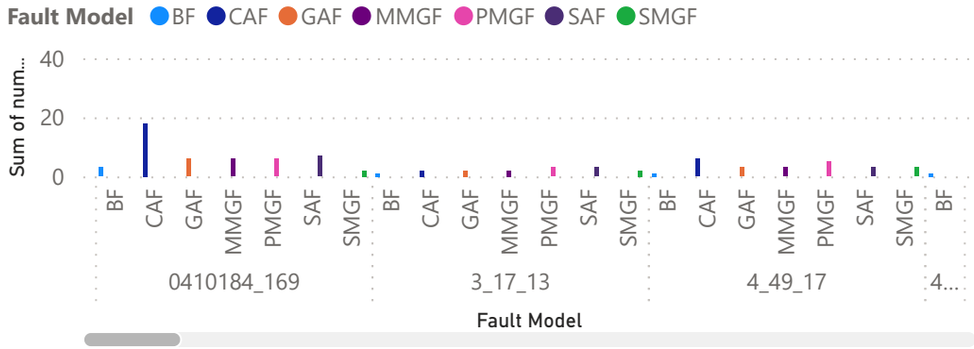
um of coverage by ault Model



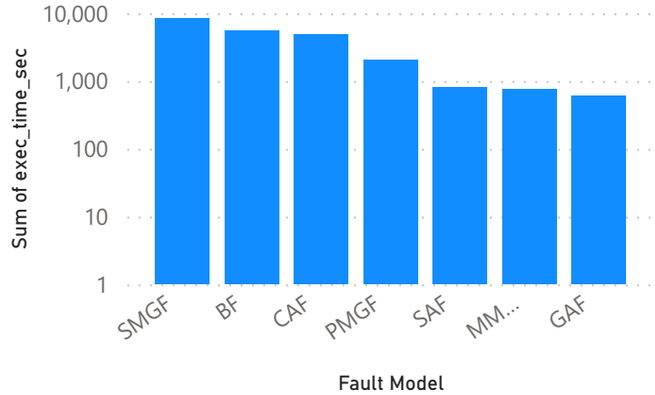
Sum of num_test_vectors by file and Fault Model



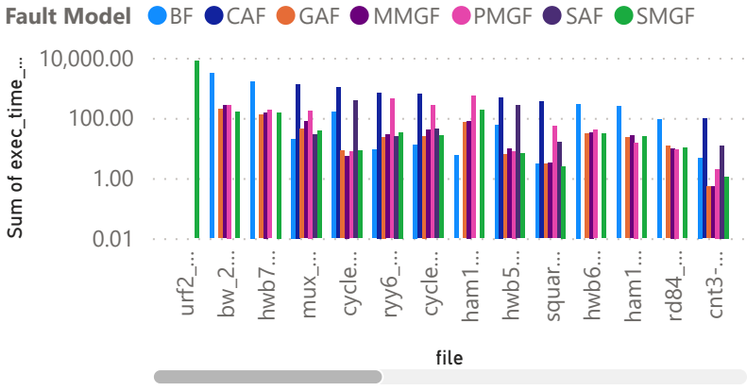
Sum of num_test_vectors by file, Fault Model and Fault Model



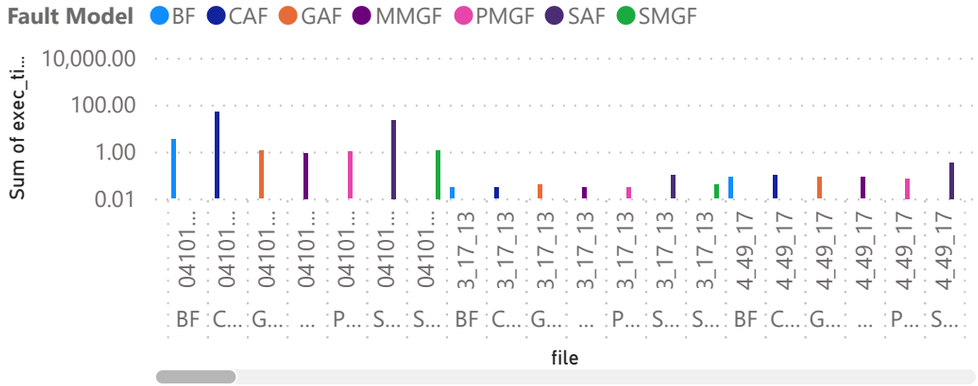
Sum of exec_time_sec by Fault Model



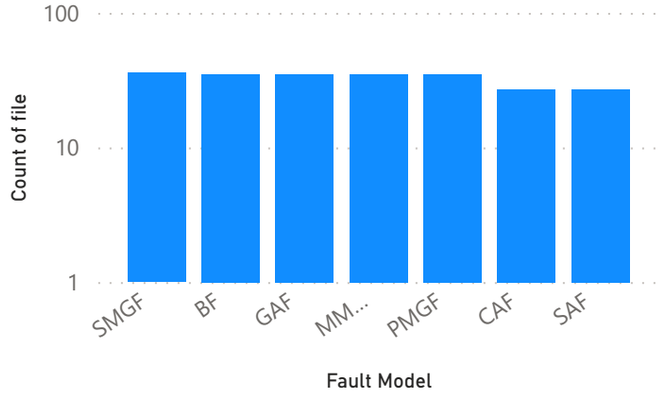
Sum of exec_time_sec by file and Fault Model



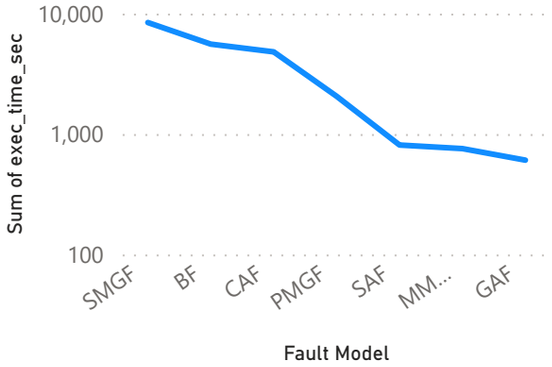
Sum of exec_time_sec by file, Fault Model and Fault Model



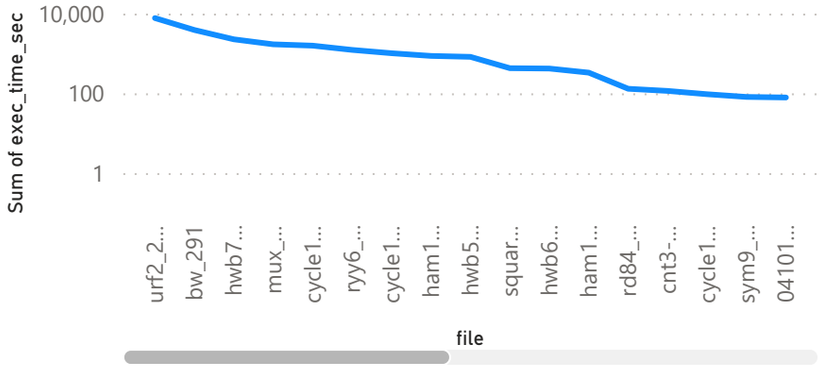
Count of file by Fault Model



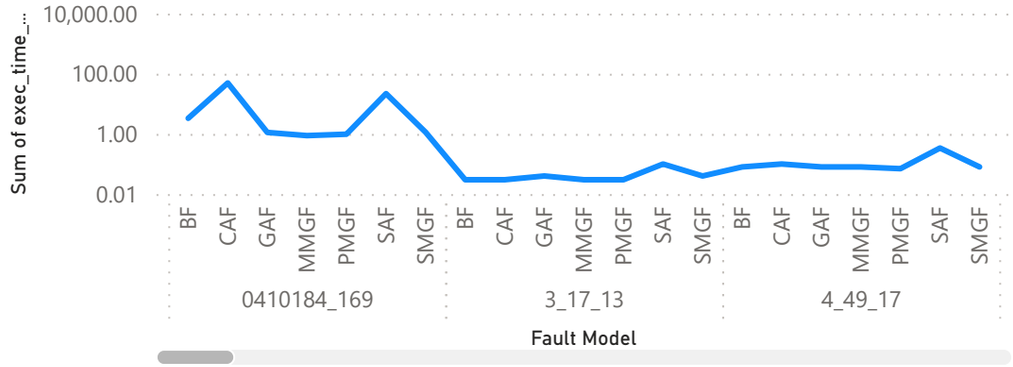
Sum of exec_time_sec by Fault Model



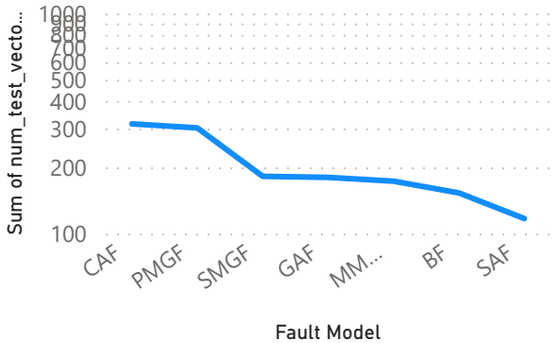
Sum of exec_time_sec by file



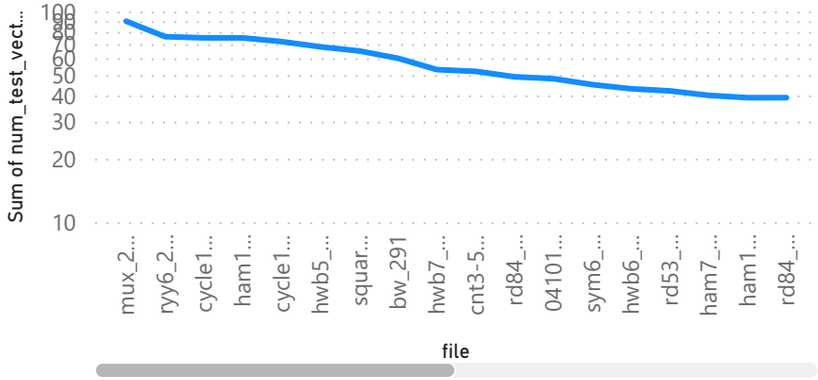
Sum of exec_time_sec by file and Fault Model



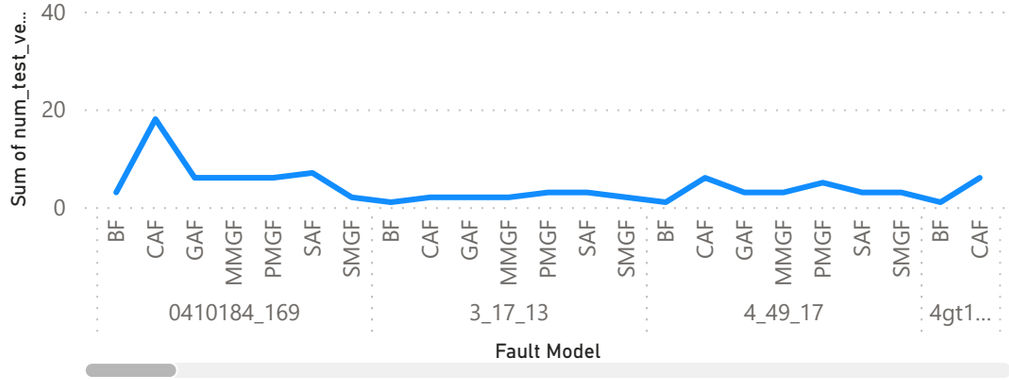
Sum of num_test_vectors by Fault Model



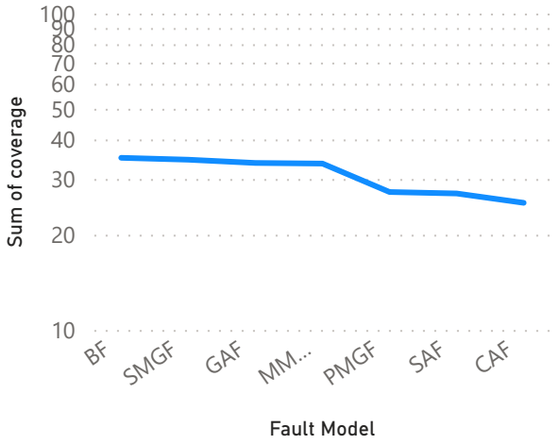
Sum of num_test_vectors by file



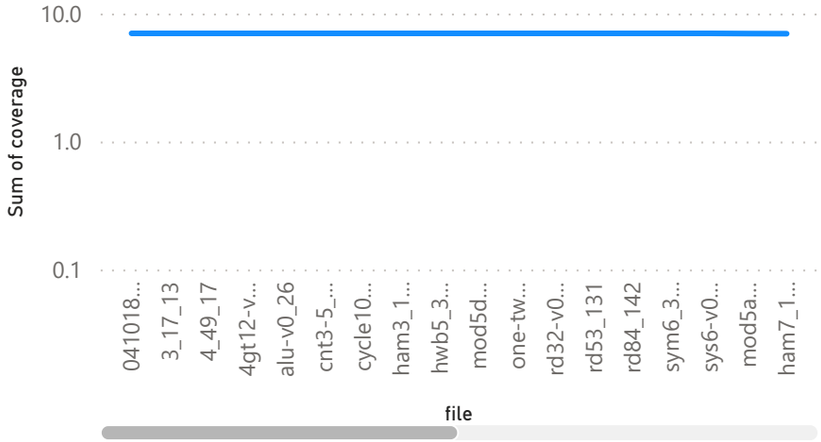
Sum of num_test_vectors by file and Fault Model



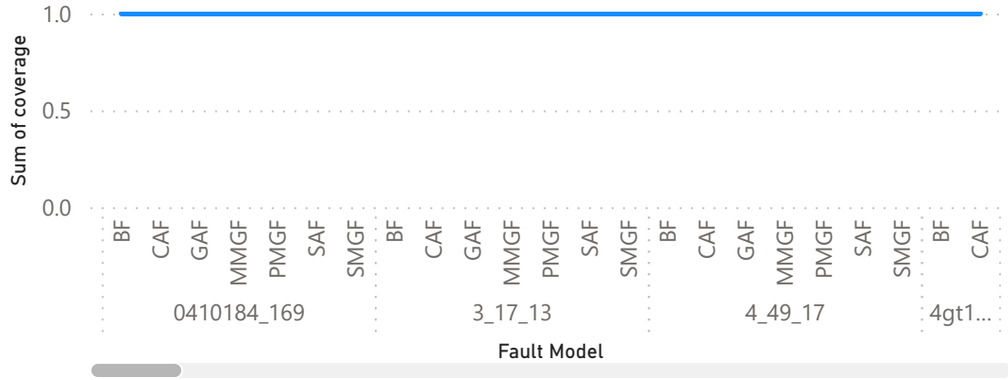
Sum of coverage by Fault Model



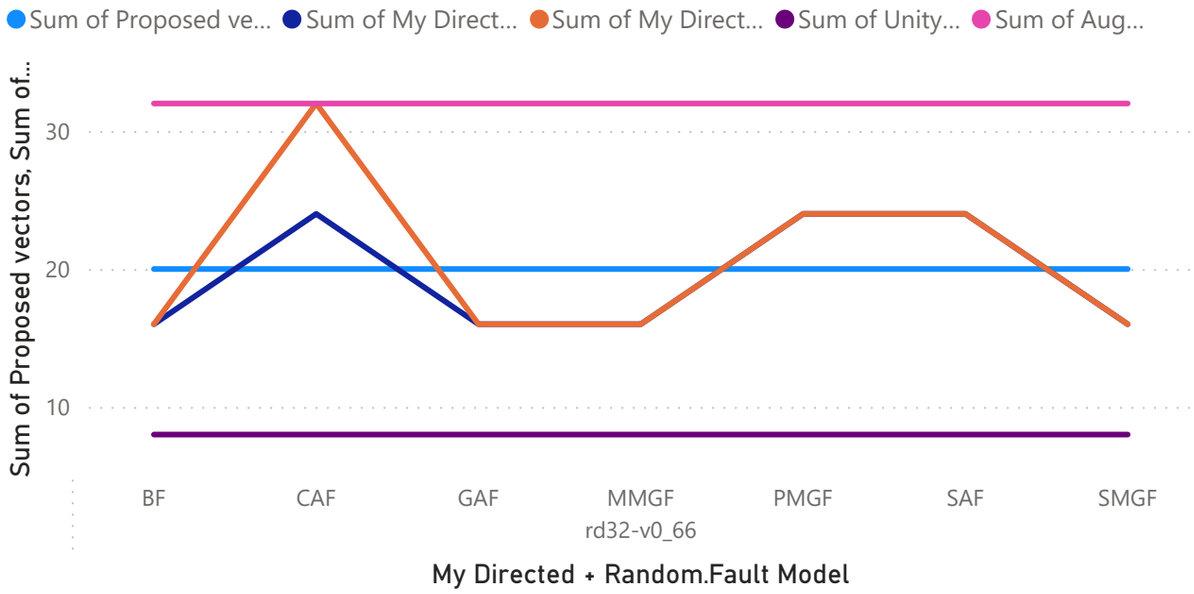
Sum of coverage by file



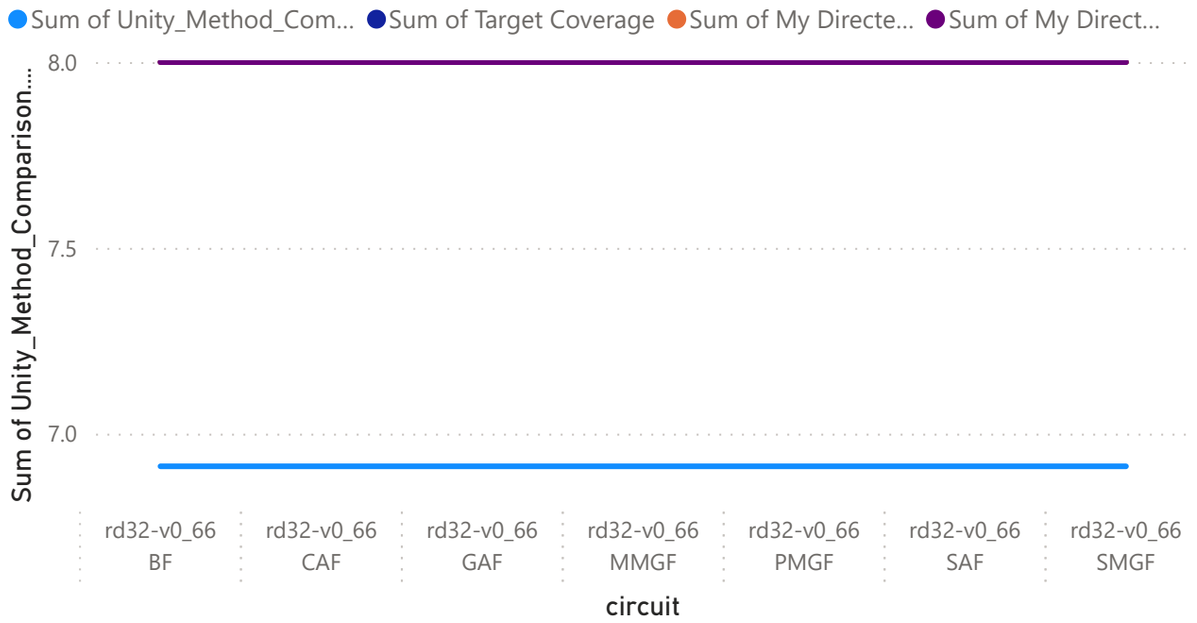
Sum of coverage by file and Fault Model



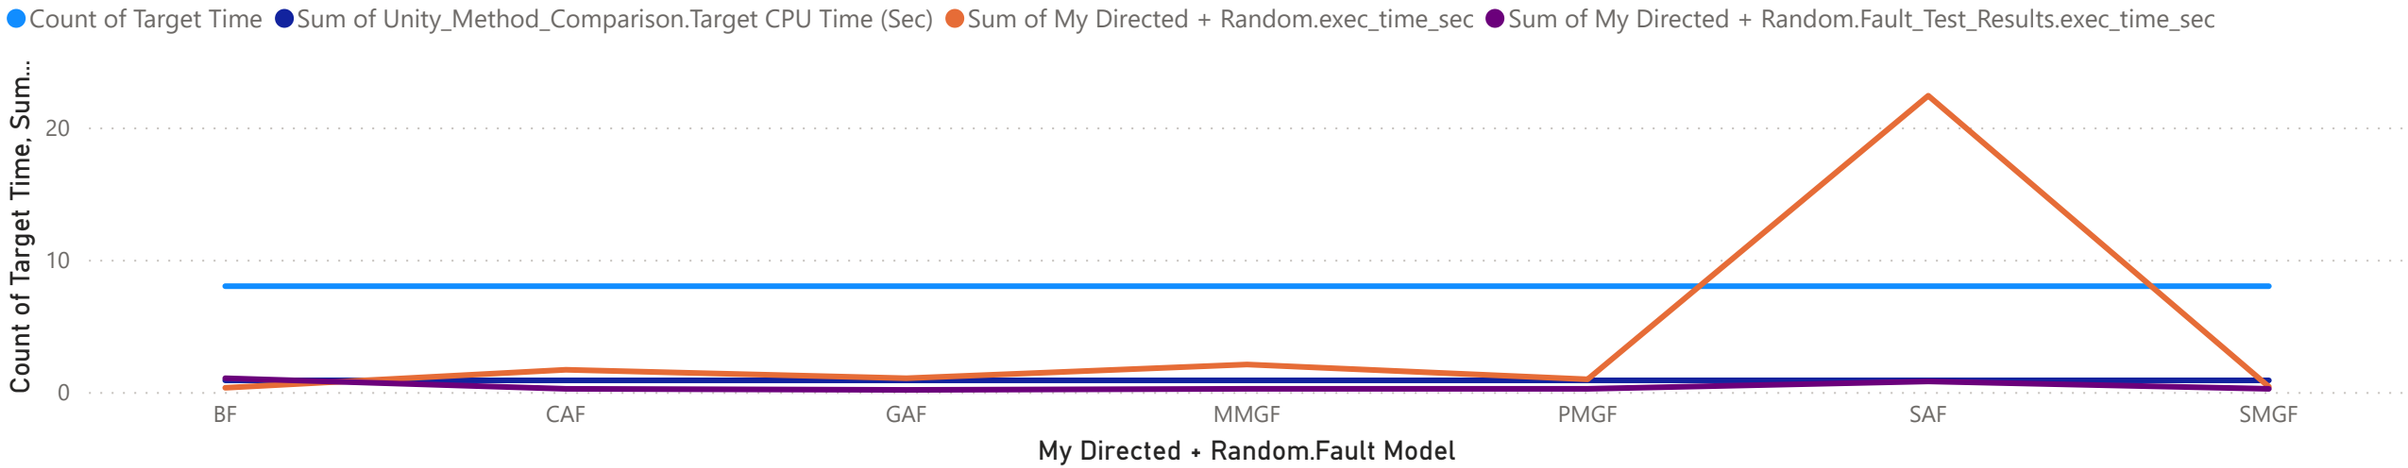
Sum of Proposed vectors, Sum of My Directed + Random.Fault_Test_Results.num_test_vectors, Sum of My Directed + Random.num_test_vectors, Sum of Unity_Method_Comparison.Target Test pattern (...



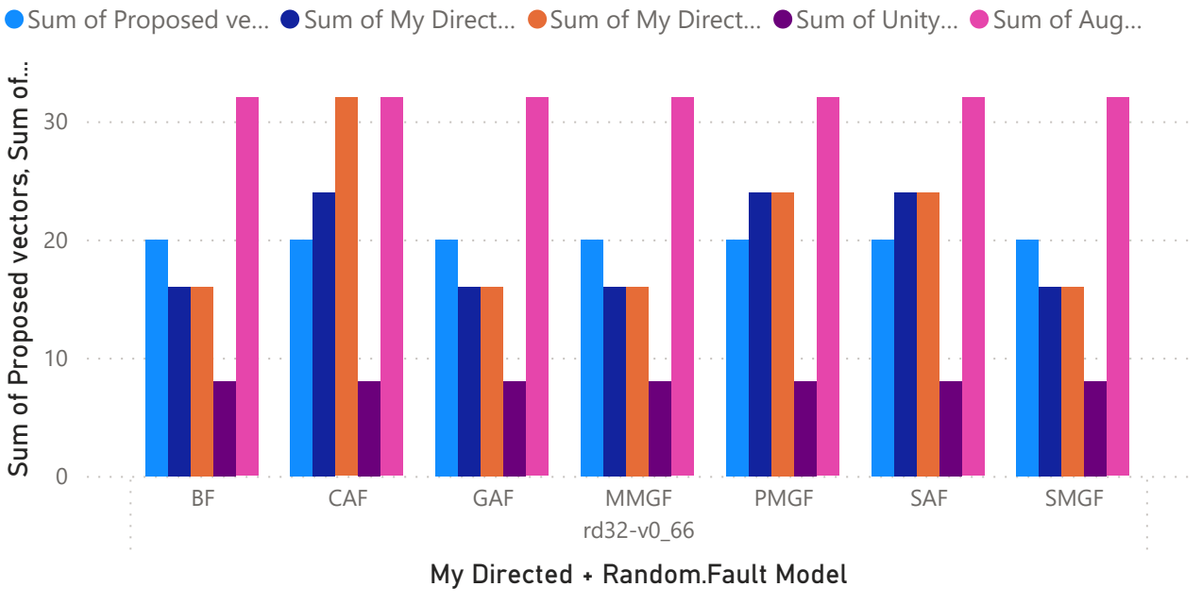
Sum of Unity_Method_Comparison.Target Coverage, Sum of Target Coverage, Sum of My Directed + Random.Fault_Test_Results.coverage and Sum of My Directed + Random.coverage by My Directed + Random.Fault Model and circuit



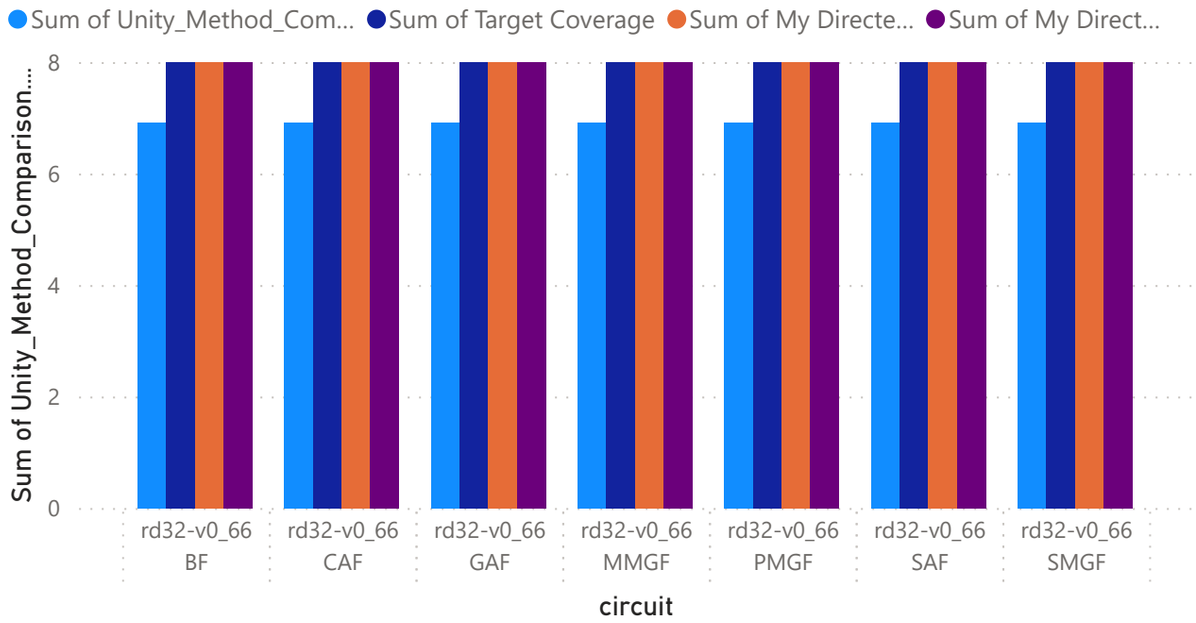
Count of Target Time, Sum of Unity_Method_Comparison.Target CPU Time (Sec), Sum of My Directed + Random.exec_time_sec and Sum of My Directed + Random.Fault_Test_Results.exec_time_sec by My Directed + Random.Fault Model

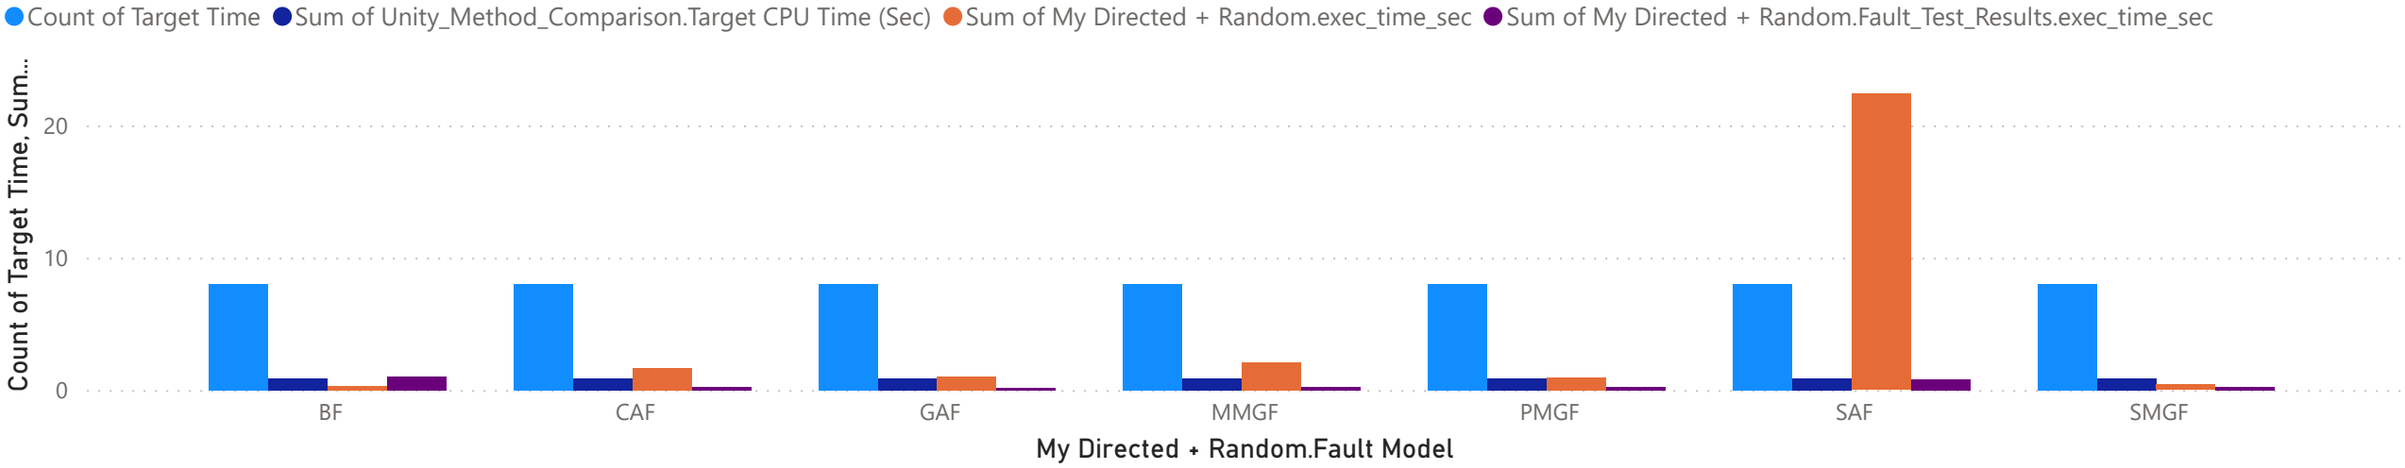


Sum of Proposed vectors, Sum of My Directed + Random.Fault_Test_Results.num_test_vectors, Sum of My Directed + Random.num_test_vectors, Sum of Unity_Method_Comparison.Target Test pattern (...



Sum of Unity_Method_Comparison.Target Coverage, Sum of Target Coverage, Sum of My Directed + Random.Fault_Test_Results.coverage and Sum of My Directed + Random.coverage by My Directed + Random.Fault Model and circuit





Count of Target Time, Sum of Unity_Method_Comparison.Target CPU Time (Sec), Sum of My Directed + Random.exec_time_sec and Sum of My Directed + Random.Fault_Test_Results.exec_time_sec by My Directed + Random.Fault Model
